

# Winners!

Wireless system research group led by Dr Zheng captured the first prize in indoor localization competition in the 16th ACM/IEEE International Conference on Information Processing in Sensor Networks in the infrastructureless category on April 18th, 2017.

The team consists of Qiang Xu, Chenhe Li, Zhe Gong, Cristian Frincu. The solution uses sensors available on commercial-off-shelf Android devices without needs to deploy additional infrastructure.

Information about the competition can be found at <http://ipsn.acm.org/2017/competition.html>
