0, 2, 4, or 6?
1, 3, 5, or 7?

The diagram shows a grid of 8 rows and 4 columns. The first row contains the numbers 3, 2, 1, 0. The second row contains the numbers 7, 6, 5, 4, each with a horizontal underline. The third row contains empty cells, with an ellipsis in the fourth column. The remaining rows (3, 4, 5, 6, 7) are also empty. To the right of the grid, a box contains two lines of text: '0, 2, 4, or 6?' and '1, 3, 5, or 7?'. Arrows point from the first row of the grid to the first line of the box, from the second row to the second line, from the third row to the first line, and from the fourth row to the second line. Vertical ellipsis dots are placed between the fourth and fifth rows, and between the fifth and sixth rows of the grid.
