Shahab Asoodeh

ITB 212, 1280 Main St W, Hamilton, ON L8S 1C7

☎ 905-525-9140x27554 • 🖂 asoodehs@mcmaster.ca • 🖆 www.cas.mcmaster.ca/ asoodehs

Appointments

0	Vector Institute <i>Faculty Affiliate</i>	Toronto, ON 2023–present
0	McMaster University Assistant Professor, Department of Computing and Software	Hamilton, ON 2021–present
0	Meta Visiting Research Scientist, Statistics & Privacy Team	Menlo Park, CA 2021–2022
0	Harvard University Postdoctoral Fellow, School of Engineering and Applied Science	Cambridge, MA 2019–2021
0	The University of Chicago <i>Postdoctoral Scholar, Computation Inst. and Inst. of Genetics and System Biology</i>	Chicago, IL 2017–2019

Education

0	Queen's University <i>Ph.D. in Applied Mathematics</i>	Kingston, ON 2017
0	Queen's University M.Sc. in Applied Mathematics	Kingston, ON 2012
0	ETH Zürich and TU Delft <i>M.Sc. in Electrical Engineering</i>	Switzerland and Netherlands 2011
0	Beheshti University B.Sc. in Electrical Engineering	Tehran, Iran 2008

Sponsored Research

- 2022-2027: NSERC Discovery Grant: "Foundations of Differential Privacy Watchdog: From Theory to Practice"
- 2022: NSERC Discovery Launch Supplements
- o 2020: Oracle Labs: Private Federated Learning: From Theory to Practice. (Together with Flavio Calmon, Harvard)

Tutorials and Short Courses

- **2023: Local Differential Privacy and Contraction of Markov Kernels:** Contributed session taught at Latin American Congress of Probability and Mathematical Statistics (CLAPEM), São Paulo, Brazil.
- 2022: Foundations of Differential Privacy: Course taught to grad students at Canadian Society of Information Theory.
- **2022: Information-Theoretic Tools for Responsible Machine Learning:** Tutorial taught at International Symposium on Information Theory, Helsinki, Finland.

Professional Services

- Diversity and Inclusion Committee Member (2025-present): IEEE Information Theory Society
- Technical Program Committee Member: 2024, 2025 IEEE International Symposium of Information Theory (ISIT)
- Organizing Committee Member: 2024 IEEE North American School of Information Theory
- Organizing Committee Member: 1st Workshop on Information-Theoretic Methods for Trustworthy Machine Learning
- Editorial Board Member (2023-present): ACM Transactions on Probabilistic Machine Learning

Current Group Members and Research Advisees

- McMaster University:
 - Hrad Ghoukasian (Research Associate since Winter 2025)
 - Narges Rahimi Shahmirzadi (M.Eng. since Fall 2024)
 - Behnoosh Zamanlooy (Ph.D. since Fall 2022)
 - Alireza Daeijavad (Ph.D. since Fall 2022)

• Harvard University:

- Benjamin Levy (M.Sc. in IACS, 2020-2021)
- Zihao Xu (M.Sc. in IACS, 2020-2021)
- Liyang Zhao (M.Sc. in IACS, 2020-2021)
- Shuying Ni (M.Sc. in IACS, 2020-2021)
- Qiang Fei (M.Sc. in IACS, 2020-2021)
- Yingsi Jian (M.Sc. in IACS, 2020-2021)
- Mingyue Wei (M.Sc. in IACS, 2020-2021)
- Shuyuan Xiao (M.Sc. in IACS, 2020-2021)

Past Group Members

- Hrad Ghoukasian (M.Sc. graduated in Fall 2024): Currently Research Associate at McMaster
- Alireza Fathollah Pour (Research Associate Feb Aug 2023, co-supervised with Hassan Ashtiani): Currently Ph.D. at University of Waterloo
- Hyun-Young Park (Visiting PhD student from KAIST, Winter 2023)
- Anish Das (Mitacs intern, Summer 2023)
- Nihal Azavedo (Undergrad, 2021-2022): Currently Ph.D. at NYU

Thesis Committee

- Yuanming Cao, Ph.D. at McMaster University (2024 present)
- Zheheng Zhao, Ph.D. at McMaster University (2024 present)
- Monica Welfert, Ph.D. at Arizona State University (2024 present)
- Naima Tasnim, Ph.D. at Arizona State University (2024 present)
- Mohammad Afzali Kharkouei, M.Sc. at McMaster University (2022 2024)

Publication

Clarification on authorship: I publish and collaborate across areas. Each field has its own conventions for ordering authors. Authorship lists can be alphabetical, represent the order of contribution (usually with students first), have senior PIs ordered by contribution, or have a single lead senior PI as last author. Below, asterisk refers to a trainee under my supervision.

Journals and Full CS Conference Papers

Talks and Workshops

- Locally private samplers: Minimax optimality for general *f*-divergences,
 - Workshop on Machine Learning and Statistics: From Theory to Practic at the Banff International Research Station (BIRS) for mathematical innovation and discovery, Chennai, India, January 2025. [Invited]
 - Vector Institute, February 2025. [Invited]
- Contraction of Markov kernels and differential privacy, Workshop on Information-Theoretic Methods for Trustworthy Machine Learning at the Simons Institute for the Theory of Computing, Berkeley, California, May 2023. [Invited]
- Saddle-point accountant for differential privacy

- Google Research, October 2022. [Invited]
- Meta, October 2022. [Invited]
- Workshop on Differential Privacy and Statistical Data Analysis, Fields Institute, July 2022.
- Optimal differential privacy mechanisms under long composition regime, Meta/Facebook, December 2021. [Invited]
- Trustworthy machine learning, Mac AI Society, November 2021. [Keynote Speaker]
- Information theory for responsible machine learning, 2021. [Invited]
 - Faculty of Information (iSchool), University of Toronto
 - Department of Computer Science, University of Vermont
 - School of Mathematical and Statistical Sciences, Clemson University
 - Mathematical Institute, Leiden University
- Privacy analysis of iterative algorithms via *f*-divergences, Google Research, 2021. [Invited]
- On the equivalence between local differential privacy and contraction of E_{γ} -divergence, Privacy Tools Meeting, Harvard University, 2021. [Invited]
- Three variants of differential privacy: Lossless conversion and applications, Theory and Practice of Differential Privacy (TPDP), 2020.
- Differentially private federated learning: An information-theoretic perspective, ICML Workshop on Federated Learning for User Privacy and Data Confidentiality (FL-ICML), 2020.
- Contraction coefficients of Markov kernels with applications in privacy amplification, Information Theory and Application (ITA), 2020. [Invited]
- Discovering information-leaking samples and feature, NeurIPS workshop on Privacy in Machine Learning, 2019.
- A better bound gives a hundred rounds: Enhanced privacy guarantees via *f*-divergences, Privacy Tools Meeting, Harvard University, 2019. **[Invited]**

Teaching

- McMaster University:
 - Introduction to Computational Thinking (CS 1JC3), Fall 2024
 - Discrete Mathematics for Computer Science (CS 1DM3), Winter 2023, 2024
 - Data Privacy (CS 3DP3), Winter 2023, 2024, Fall 2024
 - Information-Theoretic Methods for Trustworthy Machine Learnin (CAS751), Fall 2022, 2023, 2024
 - Information Security (CS 3IS3), Winter 2022
- Harvard University: Capstone ML Project APCOMP 297R (Co-instructor), Fall 2020

• Queen's University:

- Probability I, Fall 2015
- Engineering Data Analysis, Winter 2015
